The tornado touched down near CR 859 north of Highway 64 on the northwest side of Canton and traveled approximately 15 miles in a northeast direction. Numerous structures were damaged along the track of the tornado which ended near the Silver Lake community in the extreme Northeast corner of the county. Along the damage path, a single family home lost its entire roof and part of its exterior walls. A number of large trees were uprooted and several sheds and outbuildings suffered extensive damage. A small church was destroyed in the community of Starr. A total of 150 homes suffered damage, but only one injury was reported. Based on the damage, the tornado was rated an EF-2 with peak winds in the 110 to 120 mph range. HUNT COUNTY --- 3.0 S LONE OAK [32.96, -95.93]

Several county roads throughout the county were covered with water. County Road 243 was closed east of the city of Kaufman.

A strong to severe line of thunderstorms moved through North Texas during the morning hours of January 28th. All of the severe weather reports were associated with straight-line winds in the 60 to 65 mph range. Some instances of flash flooding and flooding occurred later in the day as light to moderate rain continued to fall on already saturated soils.
